Dear Sir:

An Information Disclosure Statement was filed in the present application on November 30, 2006 copies of cited references that were revealed in a European Search Report dated October 4, 2006. Each of the cited references was characterized as an A document, "technological background." Based upon this characterization, Applicants believe that none of

5 these documents are material to the patentability of the pending claims in the subject application and that the IDS was made as a matter of course. Applicants' attorney hereby states, under 37

CFR 1.97(e) "that each item of information contained in the information disclosure statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the information disclosure statement.

10 Such documents were revealed in a European Search Report dated October 4, 2006 and were cited to the USPTO on November 30, 2006, less than three months later."

Respectfully submitted,

Date: January 4, 2007
